## Hot Water Bottle Instruction Manual

**Safety Instructions** – Please retain all packaging for future reference.

When filling this hot water bottle, do not use boiling water and fill to a maximum of two thirds capacity or less.

Do not overfill as this might cause the bottle to burst.

Prevent contact with hot surfaces.

Prevent contact with oil or grease.

Carefully insert the bottle into its cover ensuring that the fabric lies flat. When not in use, drain completely and keep with the stopper removed, in a cool, dry, dark place.

Do not fill using water from the domestic hot water system as this can considerably shorten the life of the hot water bottle.

Prevent exposure to sunlight.

Do not use hot water bottle in conjunction with an electric blanket.

This product is not a toy. Keep out of reach of children.

This product is not a medical device. Contact a doctor before use during pregnancy.

This hot water bottle is not suitable for children under 36 months due to the risk of overheating.

It is advisable to replace your rubber bottle after every 2 years of use, to ensure that you are always using a bottle which is in good shape and safe. Rubber naturally deteriorates over time and this natural process can be affected by how it is stored and used.

**This hot water bottle is manufactured to British Safety Standard 1970:2012**

### Using the Hot Water Bottle:

**STEP 1:** Hold the bottle by the neck in an upright position and fill slowly to avoid hot water splashing back.

**STEP 2:** Expel air from the bottle by lowering it carefully onto a flat surface until water appears at the opening.

**STEP 3:** Screw the stopper sufficiently tight to ensure that there is no leakage. Finger tight should be adequate.

**STEP 4:** Finally make sure the funnel is empty.

**NOTE:** If there is a possibility that prolonged contact with the skin could occur, an adequate cover should be used to prevent burns.

**WARNING:** Under no circumstances should the hot water bottle be used as a cushion and be sat on.

### Storage

When not in use, drain completely and keep, with the stopper removed, in a cool, dry, dark place. Do not place anything on top of the hot water bottle during storage.

Prevent exposure to sunlight.

Check the bottle and stopper for wear and damage prior to use.
